THE ENERGY SPECIALIST

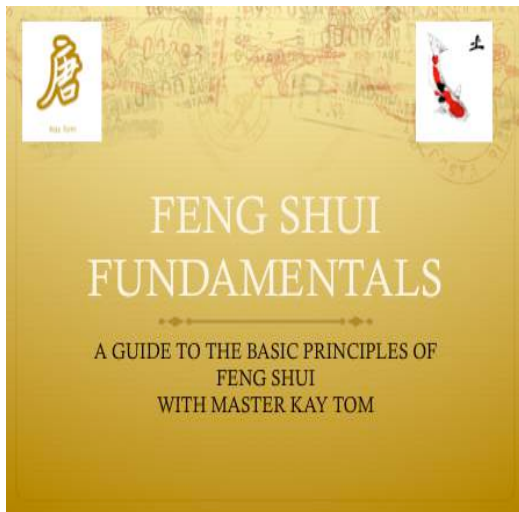

AUTUMN 2015

AUTUMN

Time for bringing in the harvest, for contemplation and reflection and for sowing the seeds of 2016

Autumn poses exciting times for all of us for not only is this a time to reap the rewards of our endeavors of the last two seasons but is also a time for sowing the seeds and making plans for the New Year ahead. This may well feel somewhat premature at this stage but just as a farmer is ploughing his fields ready to scatter the good seed on the land then so too can we sow our ideas now in order to be ready for them to begin to bloom in the spring. This is a time for making plans, for trimming the dead wood and removing unnecessary things from our life. Never doubt nature knows best.

FENG SHUI FUNDAMENTALS

THE BASICS OF THE TOOLS OF THE TRADE
