CHUE STYLE FENG SHUI IN DUBAI

It was with great pride that Master Kay Tom arrived in Dubai in May to represent Grand Master Chan and the esteemed name of Chue Style Feng Shui. She was there to present six introductory seminars to interested parties from both the private and commercial sectors and was thrilled at the level of interest shown. Without a doubt Dubai is an extremely progressive city so the prospect of incorporating Chue Feng Shui is an exciting one.

CHUE STYLE FENG SHUI

Without a doubt Chue Style Feng Shui is the leader in the field of Feng Shui. Previously closely guarded secrets have been taught to the students of the Chue Lineage by the direct word of a Master in order to gain a clear and in depth knowledge of the strength and the implications of the cycles of Nature. Grand Master Chan and his representatives are teaching material that no other school in Europe is teaching, such is the depth of their understanding of Yin and Yang, of the movements of the sun and the moon, of the actions of the 4 seasons and of the 64 hexagrams of the Chinese Compass, the Lopan.

YIN NEEDS YANG AND YANG NEEDS YIN

No matter if your desire is to start a family or is to increase the turnover of your business or anything between these two points the same fundamental rule applies: -

YIN AND YANG NEED TO BE IN HARMONY

Learn how to recognise and utilise this knowledge through attending a course or commissioning a personal or commercial consultation:
